# Content and features:

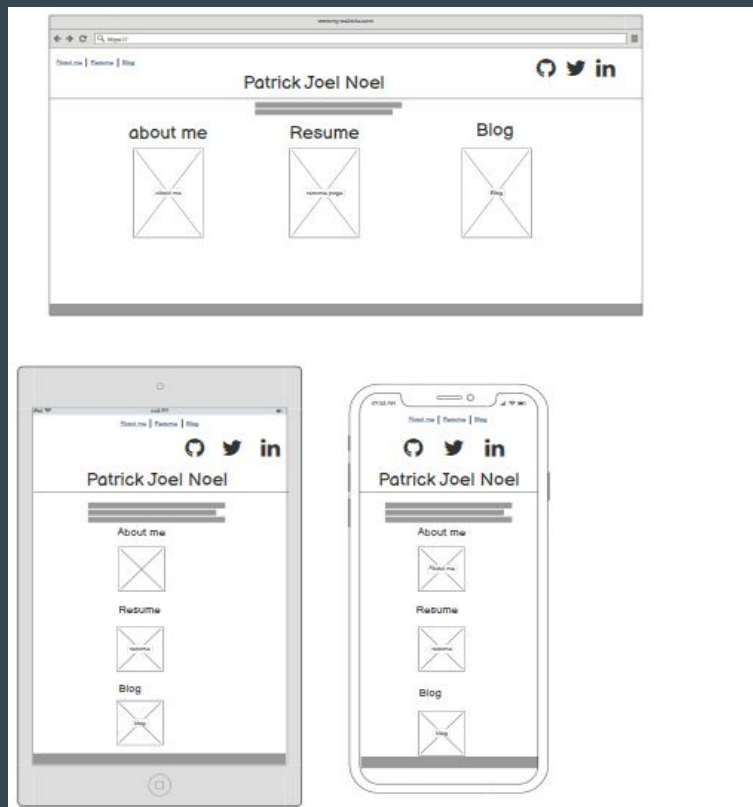

This website is an exercise of my web development skills in HTML and CSS across four web pages.

- Home page is a directory using reactive images and CSS to navigate the website.
- About Me is a page to inform the reader a little about myself, where I come from and how I landed in the tech industry.
- Resume simply is my resume along with a PDF and links to my social media.
- Blog is a page that was made to showcase my skills using flex and dog photos. (I threw in an extra reactive box because why not.)

# Resume Wireframe

# Blog Wireframe

# Development

While creating this website I wanted to have it be simple and showcase the variety of skills with HTML and CSS that I have acquired since the start of study.

I truly enjoyed just putting on music and getting to work!

## Problems:

Flexbox: Sometimes friend, sometimes foe.

Spending hours writing and rewriting code to discover the issue was a missing `/`.

## About Me

I was raised by my grandparents growing up in a small town in Ontario, Canada. As long as I can remember all I wanted to do was join the army. By the time I was old enough to join the army I had moved out to western Canada to live with my father. The week after I graduated high school I was sent off to do my training and begin my military career.

After years of training and domestic operations I was given an opportunity to go to Australia and train with an Australian regiment. Shortly after arriving in Sydney I met my

### Profile:

It is my goal to shift into a challenging role where I have the opportunity to recall, adapt and build upon the skills that I have acquired through previous positions and experiences. I hope to continue to grow professionally while dedicating my focus and wholeheartedly applying myself to the task at hand in an exciting new career. I am currently living in Sydney, Australia and studying a Diploma of Information Technology / Web Development Bootcamp with Coder Academy.

### Experience:

#### Scaffolder

Mr Scaffold | 2020 - 2022

- Working under pressure at heights and in confined spaces, meeting rigid departure deadlines.
- Adhering to strict safety regulations in isolated high security areas such as defence force base & ships.
- Construction & dismantling of scaffold on ADF Navy ships, autonomously and within a team environment.

#### Lead Hand

Rising Fast Scaffolding | 2017 - 2020

- Managing teams of up to 10 labourers.
- Adhering to strict safety regulations.
- Client liaison, bookkeeping and job quotations.
- Installation and dismantling of heavy materials under pressure and within strict timeframes.
- Managing worksite timelines and adhoc managerial duties as required.

#### Corporal - Weapons Debt 3IC

Canadian Forces Infantry | 2009 - 2017

- Organising & managing groups of 6-8 persons.
- Overseeing fire teams & weapons management.
- Small arms coaching & training defence personnel.
- Domestic relief operations. (Calgary & Manitoba Floods)
- Transfer to ADF reserves. Honourable release 2017.
